rlogank@icloud.com · 813-585-5747 · rlogank.com

React developer that specializes with CSS and design, and has dabbled into backend and devops.

EXPERIENCE

UX Designer, Frontend Developer at Hollowverse.com
Apr 2022 - May 2022

Provided modernized design updates and revisions to high-traffic NextJS website about celebrities and controversial facts.
· Re-imagined previous design, wireframed new design
· Removed SCSS and Material UI
· Developed, implemented new design system with Tailwind CSS
· Redesigned several pages
· Discussed various design concept proposals

Frontend Developer, Designer at Private Client, Crypto Exchange
Feb 2022 - Present

Providing frontend development for a private cryptocurrency exchange startup using React and Tailwind CSS.
· Design and construct frontend for buying, selling, and trading cryptocurrencies
· Make proposals for design, functional concepts, and ideas for implementations
· Develop features that connect to APIs and display data
· Develop features that handle backend interaction

Wordpress Developer at AuctionPad.com
Apr 2022 - Apr 2022

Provided several visual changes and functional fixes to client's complex WordPress website.
· Edited and configured several plugins to manipulate the website per client's requests
· Provided several CSS to style the website to match a 1:1 copy of another website

Freelance Development at Upwork Client
Mar 2022 - Mar 2022

Assisted another web developer in fixing their webhost issue that was rendering his website with several visual bugs.
· Successfully targeted the caching issue and repaired it to the client's full satisfaction

Owner, Web Developer at FreshKeys.VIP
Bradenton, FL · Apr 2020 - Oct 2021

Developed the website for, and operated a small online business which sold license keys to video game mod software.
· Ensured all automated systems were operating correctly
· Ensured the site was unaffected by DDoS attacks (gaming industry...)
· Experimented with different site designs and concepts
· Experimented with Shopify, WordPress with WooCommerce, React
· Managed SEO, marketing, finance, copy, presentation, and support
· Managed brand identity and online community
